

Press Release – SANYO HVAC Solutions, A Division of SANYO Commercial Solutions

Flexi-Multi Split System Capable of 213 Combinations for heating and cooling

SANYO HVAC Solutions Flexi Multi AC and Heat Pump Systems

SANYO Flexi Multi wall mounted air conditioners offer the utmost in versatility in solving your cooling and heating needs with 213 different combinations for multiple applications. The multi-system type allows a single outdoor unit to be connected to 2 to 4 indoor units. It also solves the problem of limited installation space and does not clutter the exterior of your home. By utilizing environmentally friendly R-410a refrigerant and DC Inverter technology, the SANYO Flexi Multi wall mounted air conditioner, automatically adjusts its performance to meet the changing needs of the space while maintaining the desired temperature. This leads to increased efficiencies, low energy consumption and a very comfortable environment.

SANYO HVAC solutions is recognized as a leader in air conditioning technology. With over 20 years experience in the U.S., we are consistently building new ideas to help build your business. Our focus on efficiency and reliability demonstrates our commitment to our customers and our planet. By delivering more multi-zone options, space-saving designs and environmental friendship, our solutions become human solutions. Because when you think about a building as a living space, everyone involved lives better. From design to installation to operation, we live for the living inside.
