

**Press Release- SANYO to show ECO-i and Flexi Multi VRF technologies as well as Compressors at 2008 AHR EXPO in New York City on January 22-24, 2008**

January 2, 2008

(Bensenville, Illinois, USA; Osaka, Japan) SANYO HVAC Solutions, a division of SANYO Commercial Solutions is proud to announce its participation in the 2008 AHR Expo at the Jacob Javits Convention Center in New York City, NY on January 22-24. Consistently ahead of the trends on hot button industry issues such as energy efficiency, air quality, building integration and automation, green building initiatives and sustainability, we look forward to showcasing the 3-way Eco-i outdoor unit, the water source Eco-i, Flexi-Multi and compressors. With over 1,850 exhibits and 72 educational sessions, we hope to be a standout among competition. Come visit us at booth #2457.

The SANYO ECO-i™ system is an intuitive system that provides an immediate response to a change in room capacity, heat loads and varying sun exposure throughout the day. It lives and breathes with the room inhabitants to maintain maximum comfort. Individual comfort zones allow for each office or room to be adjusted to personalized preferences. Applications for this revolutionary technology include everyone: retail offices, nursing homes, churches, airports, educational facilities, and healthcare.

SANYO Flexi Multi wall mounted air conditioners and heat pumps, offer the utmost in versatility with 213 different combinations of heating and cooling options for multiple applications. It solves the problem of limited installation space and does not clutter the exterior of your home. By utilizing environmentally friendly R-410a refrigerant and DC Inverter technology, the SANYO Flexi Multi air conditioner or heat pump, automatically adjusts its performance to meet the changing needs of the space while maintaining the desired temperature. This leads to increased efficiencies, low energy consumption and a very comfortable environment.

SANYO HVAC Solutions is recognized as a leader in air conditioning technology. Proudly celebrating 25 years of experience in the U.S., we are consistently building new ideas to help build your business. Our focus on efficiency and reliability demonstrates our

commitment to our customers and our planet. By delivering more multi-zone options, space-saving designs and environmental friendship, our solutions become human solutions. When you think about a building as a living space, everyone involved lives better. From design to installation to operation, we build life for the living inside.
